Sixolab LLC Frontend Architecture, Design System, and Full-Site Specification

Executive Reference Synthesis & Architectural Paradigm

Designing the flagship digital presence for **Sixolab LLC** requires reconciling two traditionally distinct web design paradigms: the atmospheric, kinetic craft of award-winning creative studios and the dense, high-trust service taxonomy of global technology consultancies[1]. As the parent holding company governing **Gitlink IT Solutions** (Technology / Build), **Xenon Studios** (Creative & Branding / Create), and **One Percent** (Film & Visual Execution / Produce), the Sixolab platform must operate simultaneously as an executive holding-group portal and a comprehensive, end-to-end service engine capable of onboarding single-vertical clients or orchestrating multi-company launches[1].

An architectural audit of the eleven benchmark reference platforms alongside the existing child agency ecosystems demonstrates how world-class digital products balance visual theatre with structural legibility. Rather than treating these references as isolated aesthetic moodboards, the Sixolab frontend specification extracts specific functional mechanics from each benchmark and synthesizes them into a unified HTML5, Tailwind CSS, vanilla JavaScript, and GSAP architecture. From **Resend** (resend.com), the system adopts a strict dark-mode-first discipline built on pure black and carbon surfaces, 1px specular top-edge card borders, monospace technical metadata, and subtle fractal noise textures that eliminate gradient banding across dark viewports[4]. From **Graphite** (graphite.com), the architecture incorporates exposed hairline Bento grids, structural 1px solid subdivisions, coordinate crosshair intersections, and monumental footer geometry[9]. **Huly** (huly.io) informs the volumetric atmospheric lighting model, where focused vertical and conic light-beam shaders in the hero viewport pair deep crimson and wine ambient bleed with a single high-luminance orange primary call-to-action button, while secondary navigation actions remain in restrained outline pills to avoid visual competition[11].

The narrative pacing and interaction mechanics draw equally from the studio benchmarks. **Mission Control** (missioncontrol.co) provides the blueprint for startup-velocity editorial clarity, seamlessly bridging brand identity, digital product design, and engineering under founder-led positioning[2]. **Cuberto** (cuberto.com) supplies the tactile 2D physics language, including a custom mix-blend-mode dual-ring cursor follower, 2D planar magnetic pull on interactive buttons, elastic SVG Bezier horizontal dividing lines that vibrate when crossed by the pointer, masked line-by-line typography reveals, and continuous horizontal ticker marquees[15]. **Instrument** (instrument.com), **Huge Inc** (hugeinc.com), and **Fantasy** (fantasy.co) govern the macro-to-micro homepage flow, combining monumental neo-grotesque typography and

disciplined negative space with futuristic, stage-like UI transitions[3]. Finally, **ScienceSoft** (scnsoft.com), **BairesDev** (bairesdev.com), and **Accenture** (accenture.com) establish the enterprise service taxonomy architecture, demonstrating how a holding organization can expose over fifty granular capabilities, explicit engagement criteria, and flexible contract models through progressive disclosure without inducing cognitive overload[1].

Reference Platform	Core Architectural Domain	Extracted UI, Layout, and Motion Mechanics for Sixolab LLC
Resend (resend.com)	Dark-Mode-First Surface Engineering	Pure dark-mode foundation (#080808 and #111111), 1px specular top-edge card borders (linear-gradient(90deg, transparent, rgba(255,90,31,0.45), transparent)), monospace metadata badges, and subtle SVG noise overlays (opacity: 0.035) that prevent color banding across dark gradients[4].
Graphite (graphite.com)	Exposed Hairline Bento Architecture	Structural 1px solid grid subdivisions using translucent Subtle Gray (rgba(115, 115, 115, 0.18)), exposed coordinate intersections (+ crosshairs at grid junctions), interactive system diagrams, and monumental footer architecture[9].
Huly (huly.io)	Volumetric Atmospheric Lighting	Focused vertical and conic light-beam shaders in the hero viewport, pairing Deep Crimson (#6B0F12) and Dark Wine (#300507) ambient bleed with a

		high-luminance Sixo Orange (#FF5A1F) primary CTA button, while keeping secondary navigation buttons in restrained outline pills to prevent visual competition[11].
Mission Control (missioncontrol.co)	Startup Velocity & Editorial Clarity	Direct, founder-oriented value propositions, seamless narrative bridging between brand identity, digital product design, and engineering, and transparent engagement model cards[2].
Cuberto (cuberto.com)	Tactile 2D Physics & Cursor Choreography	Custom mix-blend-mode dual-ring cursor follower, 2D planar magnetic pull on buttons (translateX/translateY without 3D tilt), elastic SVG Bezier horizontal dividing lines that snap when crossed by the pointer, masked line-by-line text reveals, and infinite horizontal ticker marquees[15].
Instrument (instrument.com)	Swiss-Grid Typographic Authority	High-contrast neo-grotesque display typography, disciplined negative space, structured case-study matrices, and editorial discipline across multi-disciplinary portfolios[3].
Fantasy (fantasy.co)	AI-Native Futuristic Staging	Cinematic dark surfaces, seamless stage transitions,

		and interactive capability selectors that feel like operating a precision software instrument rather than browsing a static brochure[17].
Huge Inc (hugeinc.com)	Macro-to-Micro Homepage Pacing	Bold, declarative section transitions that shift effortlessly from macro holding-group philosophy ("Build. Create. Produce.") to granular operational execution[1].
ScienceSoft, BairesDev & Accenture (scnsoft.com, bairesdev.com, accenture.com)	Enterprise Service Taxonomy & Governance	Structured capability matrices, progressive disclosure accordions, explicit engagement criteria tables ("Best Fit For", "What We Need", "What You Receive"), flexible contract/payment frameworks, and cross-company delivery blueprints that convert enterprise buyers[1].

A critical structural synthesis emerges when examining the live child agency platforms—**Gitlink IT Solutions** (gitlinkitsolutions.com) and **Xenon Studios** (xenonstudios.bd)—alongside the **Sixolab LLC Group & Ecosystem Documentation**[1]. In the commercial market, Gitlink IT Solutions has historically delivered an expansive suite of digital services encompassing web development, custom software engineering, AI automation, digital marketing (SEO, SMM, SEM), graphic design, video editing, CMS development, data operations, and IT consultancy across more than 60 completed client engagements[18]. Within the formalized 2026 Sixolab LLC holding structure, group capabilities are disciplined into three specialized operating verticals—**Gitlink IT Solutions (BUILD / Technology)**, **Xenon Studios (CREATE / Brand & Experience)**, and **One Percent (PRODUCE / Film & Visual Execution)**—united under the parent governance of **Sixolab LLC (CONNECT & OPERATE)**[1].

To satisfy the dual mandate that Sixolab functions as the strategic mother company while directly offering and showcasing every service provided across its child agencies, the frontend information architecture implements a **Dual-Layer Service Matrix**[1]. At the executive

storytelling layer, visitors encounter the disciplined "Build. Create. Produce." triad defined in the group documentation[1]. At the operational drill-down layer, the interface exposes all 44 core ecosystem capabilities alongside Gitlink's extended digital marketing, e-commerce, CMS, operational support, and flexible payment frameworks, routing every engagement through Sixolab's single-point-of-contact governance[1].

Brand Identity System, Color Tokens & Tailwind CSS Configuration

Anatomy of the Sixolab Brand Mark and Verbal Identity

The visual and kinetic language of the website derives directly from the geometric construction of the Sixolab refined brand mark. Rather than treating the logo as a static header stamp, the frontend architecture deconstructs its four semantic layers into discrete SVG path groups (#sixo-path-flow, #sixo-path-space, #sixo-path-base, and #sixo-path-knight) that drive the preloader choreography, scroll progress indicators, and ambient background geometry. Constructed on a modular geometric grid of intersecting circles with smooth curves and consistent stroke weight, the mark scales cleanly from 16px favicons to full-viewport architectural watermarks.

Anatomical Layer	SVG Element ID	Visual Geometry	Strategic Meaning & Brand Narrative
S — FLOW	#sixo-path-flow	Continuous upper-to-lower S-curve ribbon	The overall flow of the mark forms a subtle "S", representing operational continuity across technology, creative, and production verticals.
O — SPACE	#sixo-path-space	Enclosed central negative-space aperture	The central negative space creates an "O", symbolizing the unified holding hub where client objectives and specialist teams converge.

L — BASE	#sixo-path-base	Lower ascending foundation stroke	The foundation and bottom stroke represents "L", embodying structural engineering, shared operational systems, and long-term stability.
KNIGHT — STRATEGY	#sixo-path-knight	Upper-right crest and overarching profile	The overall silhouette subtly resembles a chess knight, symbolizing strategy, foresight, and intelligent moves in competitive markets.

The primary wordmark renders **S I X O** in Pure White (#F5F5F5) and **L A B** in Sixo Orange (#FF5A1F) with wide architectural tracking (letter-spacing: 0.32em). Four official mark variations are supported in the SVG sprite system: White (#F5F5F5), Orange (#FF5A1F), Gray (#A1A1AA), and Reverse (#F5F5F5 inside a #111111 circular badge), alongside app-icon containers (border-radius: 22%) in Obsidian Black, Sixo Orange, Pure White, and watermarked Carbon Black. Two official taglines anchor the verbal identity across all templates: the corporate technical tagline **"BUILDING SOFTWARE. BUILDING FUTURE."** and the ecosystem operational mantra **"BUILD. CREATE. PRODUCE."**[1]. Official corporate metadata establishes **Mahi** as Founder & CEO, with group-level communications routed through +880 1234 567890, hello@sixolab.com, and www.sixolab.com, complemented by child agency desks at gitlinkitsolutions@gmail.com and connect@xenonstudios.bd[21].

Strict 70 / 20 / 10 Color Architecture and Token Mapping

The Sixolab color system enforces a dark-mode-only discipline designed to convey intelligence, power, and innovation while maintaining WCAG AAA/AA contrast for technical legibility. The **70 / 20 / 10 Usage Ratio** governs every viewport across the platform: **70%** of the visual field is allocated to primary dark foundations (**Obsidian Black #080808** and **Carbon Black #111111**), **20%** is allocated to secondary atmospheric depth (**Deep Crimson #6B0F12** and **Dark Wine #300507**), and strictly **10%** is reserved for high-impact brand accents (**Sixo Orange #FF5A1F** and **Orange Glow #FF7A30**). Dark tones lead the visual hierarchy while orange supports exclusively as an indicator of action, active state, or strategic emphasis.

Category	Token Name	Hex Code	CSS Custom Property	Usage Ratio	Architectural Role & DOM Placement
Primary Foundation	**Obsidian Black**	#080808	--bg-obsidian	70% (Primary)	Primary <body> canvas, main section backgrounds, negative space, and preloader shutter base.
Primary Surface	**Carbon Black**	#111111	--bg-carbon	70% (Primary)	Bento cards, service containers, navigation pill surface, sticky tables, and modal interiors.
Secondary Atmosphere	**Deep Crimson**	#6B0F12	--ambient-crimson	20% (Secondary)	Radial light-beam cores, ambient hero backlighting, and active card background gradients.
Secondary	**Dark Wine**	#300507	--ambient-	20% (Secondary	Mid-stop gradient

Depth			wine	)	transitions, deep drop-shadow tinting, and recessed container wells.
Brand Accent	**Sixo Orange**	#FF5A1F	--accent-orange	10% (Accent)	Primary CTA backgrounds, the "LAB" wordmark characters, active tab indicators, and focal badges.
Interactive Accent	**Orange Glow**	#FF7A30	--accent-glow	10% (Accent)	Hover states, specular card top-borders, SVG path drawing pulses, and button aura shadows.
Neutral Primary	**Pure White**	#F5F5F5	--text-white	Neutral	All H1–H4 headings, primary metric numerals, active navigation links, and the "SIXO" wordmark.

Neutral Secondary	**Gray Text**	#A1A1AA	--text-gray	Neutral	Body copy, service descriptions, table cell content, and subtitle paragraphs.
Neutral Structural	**Subtle Gray**	#737373	--border-subtle	Neutral	Exposed hairline grid borders (rgba(115,115,115,0.2)), form input outlines, and muted captions.
Neutral Inactive	**Disabled**	#525252	--text-disabled	Neutral	Inactive filter pills, disabled form buttons, locked step numbers, and watermarked background text.

Two standardized gradient tokens unify surface lighting across all pages. The **Background Gradient (--grad-bg)** flows linearly from #080808 through #300507 to #6B0F12 (linear-gradient(135deg, #080808 0%, #300507 55%, #6B0F12 100%)), providing atmospheric warmth behind hero sections, executive callout banners, and card hover underlays. The **Accent Glow Gradient (--grad-accent)** transitions from #FF5A1F to #FF7A30 (linear-gradient(90deg, #FF5A1F 0%, #FF7A30 100%)), driving primary call-to-action buttons, active timeline conduits, specular top borders, and gradient-clipped display keywords.

Typography Scale and Exposed Hairline Grid System

Inspired by the typographic precision of Resend, Graphite, and Instrument, the font stack pairs

a geometric neo-grotesque display typeface (**Plus Jakarta Sans** for monumental headlines and brand wordmarks), a neutral neo-grotesque interface font (**Inter** for body copy, tables, and form controls), and a technical monospace font (**JetBrains Mono** for index numerals, vertical badges, and system telemetry)[5]. Following Resend's dark-mode legibility rules, the system avoids font-thin or font-light weights on dark backgrounds so characters never halate or dissolve against #080808[24].

Element / Role	Font Family	Font Weight	Desktop Size (lg+)	Mobile Size (base)	Line Height	Letter Spacing	Color Token
Hero Display (H1)	Plus Jakarta Sans	700 (Bold)	4.5rem (72px)	2.5rem (40px)	1.06	-0.03em	#F5F5F5
Section Header (H2)	Plus Jakarta Sans	600 (SemiBold)	3.0rem (48px)	2.0rem (32px)	1.12	-0.025em	#F5F5F5
Agency / Pillar Title (H3)	Plus Jakarta Sans	600 (SemiBold)	1.75rem (28px)	1.375rem (22px)	1.25	-0.015em	#F5F5F5
Card / Capability Title (H4)	Inter	600 (SemiBold)	1.25rem (20px)	1.125rem (18px)	1.35	-0.01em	#F5F5F5
Lead Editorial Copy	Inter	400 (Regular)	1.25rem (20px)	1.0625rem (17px)	1.65	0em	#A1A1AA
Standard Body Copy	Inter	400 (Regular)	1.0rem (16px)	0.9375rem (15px)	1.6	0em	#A1A1AA
Eyebrow / Vertica	JetBrains	500 (Mediu	0.75rem	0.75rem	1.4	0.16em (Upperc	#FF5A1F

l Tag	Mono	m)	(12px)	(12px)		ase)	
Technical Index / Label	JetBrains Mono	400 (Regular)	0.8125rem (13px)	0.75rem (12px)	1.4	0.08em	#737373

Structurally, every page is framed within a centered max-w-[1440px] architectural container bounded by continuous left and right 1px solid rgba(115, 115, 115, 0.16) guide rails. Major horizontal sections are separated by full-bleed 1px borders, and at primary column junctions, a 9px × 9px SVG crosshair (+) in Subtle Gray (#737373) marks the structural node.

Master Tailwind CSS Configuration

The following configuration defines the complete token system for Tailwind CSS alongside custom utilities for gradients, specular highlights, and ambient shadows.

```
JavaScript
// tailwind.config.js
module.exports = {
  darkMode: 'class',
  content: ['./*.html', './js/**/*.js'],
  theme: {
    extend: {
      colors: {
        obsidian: '#080808',
        carbon: '#111111',
        sixo: {
          orange: '#FF5A1F',
          glow: '#FF7A30',
          crimson: '#6B0F12',
          wine: '#300507',
        },
        neutral: {
          white: '#F5F5F5',
          gray: '#A1A1AA',
          subtle: '#737373',
          disabled: '#525252',
        },
      },
    },
  },
```

```
      fontFamily: {
        display: ['"Plus Jakarta Sans"', 'Inter', 'sans-serif'],
        sans: ['Inter', 'system-ui', 'sans-serif'],
        mono: ['"JetBrains Mono"', 'monospace'],
      },
      backgroundImage: {
        'sixo-ambient': 'linear-gradient(135deg, #080808 0%, #300507 55%, #6B0F12 100%)',
        'sixo-accent': 'linear-gradient(90deg, #FF5A1F 0%, #FF7A30 100%)',
        'sixo-radial-crimson': 'radial-gradient(circle at 50% 0%, rgba(107, 15, 18, 0.55) 0%, rgba(48, 5, 7, 0.25) 45%, rgba(8, 8, 8, 0) 75%)',
        'sixo-specular-top': 'linear-gradient(90deg, rgba(255,255,255,0) 0%, rgba(255,122,48,0.5) 50%, rgba(255,255,255,0) 100%)',

        'eyebrow': '0.16em',
      },
    },
  },
  plugins: [],
}
```

Signature GSAP Preloader, Ambient 3D Canvas & Non-3D-Hover Motion Engine

Strict Prohibition of 3D Hover Tilt & The 2D Planar Physics Mandate

In accordance with the frontend animation mandate, **no element anywhere on the Sixolab website may utilize 3D hover perspective transforms** (transform: perspective(...) rotateX(...) rotateY(...) or 3D card tilting on pointer hover are strictly excluded). Three-dimensional card tilting degrades sub-pixel typographic rendering on dark backgrounds and detracts from executive restraint. Instead, the Sixolab motion engine achieves tactile responsiveness exclusively through five 2D planar and shader-driven micro-interaction patterns executed in GSAP and CSS[15].

First, all Bento cards and capability containers implement **Radial Spotlight Border & Surface Tracking**. As the pointer traverses a grid of .sixo-spotlight-card elements, a lightweight vanilla JavaScript mousemove listener updates --mouse-x and --mouse-y CSS custom properties relative to each card's bounding box. A masked ::before pseudo-element illuminates the 1px

border with an Orange Glow (#FF7A30) radial gradient (radial-gradient(380px circle at var(--mouse-x) var(--mouse-y), rgba(255,122,48,0.65), rgba(107,15,18,0.25) 45%, transparent 100%)), while the card interior stays rock-steady on the 2D plane. Second, primary buttons, navigation pills, and agency badges utilize **2D Planar Magnetic Pull** via gsap.quickTo("x") and gsap.quickTo("y"), translating the element up to 12px horizontally and 8px vertically toward the cursor (ease: "power3.out") and snapping back elastically on pointer exit[15]. Third, button labels employ a **Vertical Dual-Layer Text Slot Roll**, where hovering translates the primary text layer to yPercent: -100 while raising a duplicate layer in #FF7A30 or #080808 from yPercent: 100 to 0 over 0.35s[25]. Fourth, horizontal section dividers function as **Elastic SVG Bezier Guitar Strings** (<path d="M 0 40 Q 720 40 1440 40">), bending their quadratic control point in response to pointer velocity and snapping back via ease: "elastic.out(1, 0.25)"[15]. Fifth, table rows and service accordions execute a **2D Planar Sweep Fill**, sliding a linear-gradient(90deg, rgba(107,15,18,0.32) 0%, rgba(17,17,17,0.95) 100%) highlight from left to right while nudging the heading 4px along the X-axis.

Interaction Pattern	Target DOM Elements	GSAP / CSS Mechanism	Visual & Color Feedback (Zero 3D Tilt)
Radial Spotlight Border	.sixo-spotlight-card (Bento & Service Cards)	JS --mouse-x/--mouse-y + CSS mask-composite: exclude	Illuminates 1px border in #FF7A30 and #6B0F12 within a 380px radius of cursor.
2D Planar Magnetic Pull	.magnetic-btn, Header CTA, Filter Pills	gsap.quickTo(el, "x") & gsap.quickTo(el, "y") (0.4s)	Translates flat on X/Y axes (max ±12px); aura intensifies to shadow-orange-glow-lg.
Dual-Layer Text Slot Roll	.btn-text-wrap inside all CTAs and Nav links	gsap.to(layers, { yPercent: -100, duration: 0.35 })	Upper #F5F5F5 label slides up out of mask as lower #FF7A30 label slides into place.
Elastic SVG Bezier String	.sixo-elastic-divider between major	SVG <path> Q control point +	Line bends toward pointer crossing vector and

	sections	elastic.out(1, 0.25)	oscillates back to horizontal equilibrium[15].
Blend-Mode Cursor Follower	#sixo-cursor-dot & #sixo-cursor-ring	gsap.quickSetter (0.08s dot, 0.22s ring)	10px #FF5A1F core dot + 36px #FF7A30 ring that expands to 64px over links[15].

Creative Loading Screen Choreography: "The Knight's Gambit & Modular Genesis"

To establish immediate brand authority on initial session entry, the website executes a **3.2-second choreographed GSAP Timeline Preloader** (#sixo-preloader) that visually constructs the Sixolab brand mark from its modular geometry before parting the viewport into the Hero section[26]. Subsequent internal page navigations within the same browser session read a sessionStorage.getItem('sixo_loaded') flag and bypass the full construction sequence in favor of a rapid 0.45s shutter wipe.

The preloader container (fixed inset-0 z-[9500] overflow-hidden) comprises two full-width horizontal split-shutter panels (#shutter-top and #shutter-bottom) colored in Obsidian Black (#080808) and divided across the screen's horizontal equator by a 1px Subtle Gray (#737373) hairline. Across four synchronized stages, the GSAP timeline orchestrates the genesis of the brand mark, the three child verticals, and the parent wordmark[1].

Timeline Stage & Window	Target SVG / DOM Selectors	GSAP Properties & Easing	Visual & Narrative Execution
Stage 1: Modular Grid Genesis (0.00s – 0.65s)	#modular-grid-circles, #preloader-counter, #preloader-status	scale: 0.8 -> 1.0, opacity: 0 -> 0.35, ease: "expo.out"	Five dashed construction circles (stroke: #737373) lock into place in the center of the #080808 canvas while the bottom-right counter begins ticking from 000% to 100% and top-left telemetry reads [INITIALIZING SIXOLAB

			ECOSYSTEM].
Stage 2A: L — Base Draw-On (0.20s – 0.75s)	#path-l-base, #anatomy-callout	strokeDashoffset: 1 -> 0, duration: 0.55, ease: "power3.inOut"	The lower foundation stroke draws in Pure White (#F5F5F5, stroke-width: 16) as the callout badge below the mark reads [L — BASE : FOUNDATION][27].
Stage 2B: O — Space Loop (0.70s – 1.30s)	#path-o-space, #anatomy-callout, #preloader-status	strokeDashoffset: 1 -> 0, duration: 0.60, ease: "power3.inOut"	The central negative-space aperture closes in #F5F5F5 with a subtle radial pulse of Deep Crimson (#6B0F12); status updates to [01 // GITLINK IT SOLUTIONS : BUILD] and callout reads [O — SPACE : ECOSYSTEM CORE][1].
Stage 2C: S — Flow Ribbon (1.25s – 1.80s)	#path-s-flow, #anatomy-callout, #preloader-status	strokeDashoffset: 1 -> 0, duration: 0.55, ease: "power3.inOut"	The ascending S-curve sweeps upward in #F5F5F5; status updates to [02 // XENON STUDIOS : CREATE] and callout reads [S — FLOW : CONTINUITY][1].
Stage 2D: Knight Crest Ignition (1.75s – 2.30s)	#path-knight-strategy, #anatomy-callout, #preloader-status	strokeDashoffset: 1 -> 0, stroke: "#FF5A1F", filter: drop-shadow(...)	The chess knight head and ear crest draw on in **Sixo Orange (#FF5A1F)** with an **Orange**

			Glow (#FF7A30) aura; status updates to [03 // ONE PERCENT : PRODUCE] and callout reads [KNIGHT — STRATEGY & FORESIGHT][1].
Stage 3: Wordmark & Tagline Reveal (1.85s – 2.50s)	#preloader-wordmark, #preloader-tagline, #modular-grid-circles	y: "100%" -> "0%", ease: "power4.out", opacity: 0 -> 1	SIXO (#F5F5F5) and LAB (#FF5A1F) rise out of an overflow mask (tracking-[0.34em]) , followed by BUILDING SOFTWARE. BUILDING FUTURE. in #A1A1AA while the construction grid dissolves.
Stage 4: Split-Shutter Parting (2.55s – 3.20s)	#shutter-top, #shutter-bottom, #sixo-preloader	yPercent: -100 (top), yPercent: 100 (bottom), ease: "expo.inOut"	The central equator line flashes #FF5A1F, and the top and bottom #080808 shutters slide apart vertically to unveil the Hero section and trigger the Hero entrance timeline.

Premium Ambient 3D Background Architecture: "The Obsidian & Crimson Volumetric Field"

To give the website the unmistakable depth of a tier-one global agency without introducing 3D hover tilt on UI cards, the background incorporates a fixed, non-interactive HTML5 Canvas / WebGL layer (<canvas id="sixo-ambient-3d" class="fixed inset-0 w-full h-full pointer-events-none z-0">) driven by gsap.ticker and scrubbed via ScrollTrigger[1][2].

The canvas renders two harmonized visual layers. The first layer is a **Huly-inspired Volumetric Light Cone** originating from the upper-right hero quadrant (x: 72%, y: 18%) and cascading

diagonally across the Obsidian Black (#080808) void[11]. Its radial and conic shader stops blend seamlessly from a Sixo Orange core filament (rgba(255, 90, 31, 0.11)) into Deep Crimson (rgba(107, 15, 18, 0.22)), Dark Wine (rgba(48, 5, 7, 0.14)), and pure Obsidian Black (rgba(8, 8, 8, 0)). Suspended inside this volumetric light field is the second layer: a **3D Projected Wireframe Ribbon Lattice** consisting of three mathematical orbital curves modeled after the S-O-L ribbon of the Sixolab mark. Rendered in ultra-fine translucent white strokes (rgba(245, 245, 245, 0.055)) with glowing #FF5A1F vertex nodes, the 3D geometry rotates smoothly at 0.008 rad/tick and morphs its spatial formation via ScrollTrigger as the visitor progresses down the page—appearing as a unified S-O-L sculpture in the Hero, separating into three orbital rings (Build, Create, Produce) in the Ecosystem Triad section, aligning into a horizontal conduit during the 5-Step Process section, and resolving into the iconic embossed Chess Knight silhouette in the global footer[1].

Master Page-by-Page & Section-by-Section Frontend Specification: Home Page (index.html)

Section 01: Global Sticky Header & Ecosystem Switcher (<header id="global-nav">)

The global navigation header is engineered as a fixed, high-contrast command bar (fixed top-0 left-0 w-full z-50 h-20 bg-obsidian/80 backdrop-blur-xl border-b border-neutral-subtle/20 transition-all duration-300). Inside the max-w-[1440px] mx-auto px-6 lg:px-12 h-full flex items-center justify-between wrapper, the header divides into three functional zones that balance parent-company authority with immediate child-agency routing[1].

Header Zone	DOM Structure & Tailwind Classes	Exact Text / Copywriting	Color Tokens & Interactive Behavior
Left Zone: Brand Identity	<a href="index.html" class="flex items-center gap-3 group"> containing inline SVG Knight Mark (w-8 h-8) + Wordmark + Group Badge	Wordmark: SIXOLAB (SIXO + LAB) | Badge: LLC // GROUP[1]	SVG Mark: #F5F5F5 (shifts to #FF5A1F on hover). SIXO in #F5F5F5, LAB in #FF5A1F. Divider in rgba(115,115,115,0.4). Badge in #A1A1AA.
Center Zone: Navigation Pill	<nav class="hidden lg:flex items-center gap-1	Links: Overview (index.html), The Ecosystem	Active link in #F5F5F5 with a 5px #FF5A1F indicator

Section 02: Hero Section (<section id="hero">)

Occupying the full initial viewport (min-h-screen pt-32 pb-20 flex flex-col justify-between relative overflow-hidden border-b border-neutral-subtle/20), the Hero section establishes Sixolab LLC's foundational proposition: a single executive relationship governing three elite specialist companies[1]. The background layers the #080808 Obsidian Black base with the bg-sixo-ambient (#080808 → #300507 → #6B0F12) volumetric glow in the upper-right quadrant and an embossed dark-metallic Sixolab Knight watermark (opacity: 0.12, rim-lit in

#FF5A1F and #6B0F12), mirroring the signature atmospheric treatment from the Sixolab Color Palette specification. Within the 12-column grid (max-w-[1440px] mx-auto px-6 lg:px-12 grid grid-cols-1 lg:grid-cols-12 gap-8 items-center), Columns 1 through 8 house the primary typographic stack and call-to-action controls, while Columns 9 through 12 frame the focal 3D wireframe S-O-L sculpture rendered on the background canvas.

Section 04: The Ecosystem Model & Quick-Reference Routing Matrix (<section id="ecosystem-triad">)

Set against an Obsidian Black canvas (py-28 lg:py-36 bg-obsidian relative border-b border-neutral-subtle/20), Section 04 articulates the structural mechanics of the Sixolab holding model[1]. The section opens with a centered editorial header (max-w-3xl mx-auto text-center mb-20) featuring the monospace eyebrow 01 // THE ECOSYSTEM MODEL in #FF5A1F, the H2 headline "Sixolab does not pretend to personally provide every service. It owns and operates the specialists who do." in #F5F5F5, and the lead paragraph "Sixolab LLC owns and operates a network of focused companies, each with its own expertise, team, and standards. For clients, that means one relationship and the right specialist for every part of the work: whether you need one company or all three working as one team." in #A1A1AA[1].

Below the editorial header, an interactive HTML/SVG Hub-and-Spoke diagram connects the apex parent node (SIXOLAB LLC — PARENT COMPANY [CONNECT & OPERATE], styled in bg-carbon border-2 border-sixo-orange px-8 py-4 rounded-xl shadow-orange-glow) via orthogonal SVG circuit paths (stroke="#737373" with animated #FF5A1F energy pulses) to the three specialist pillar cards (grid grid-cols-1 lg:grid-cols-3 gap-8)[1].

Section 05: Deep-Dive Vertical Showcases (Pinned Scrollytelling Deck) (<section id="vertical-deep-dives">)

Section 05 utilizes a GSAP ScrollTrigger pinned layout (py-28 lg:py-36 bg-obsidian border-b border-neutral-subtle/20) to present the complete capability rosters of all three specialist agencies without forcing the user to leave the home page[1]. On desktop viewports (lg:grid-cols-12), Columns 1 through 4 remain sticky (sticky top-28 h-fit) displaying a dynamic vertical counter (01 / 03 → 02 / 03 → 03 / 03), the active company's ecosystem role badge (BUILD, CREATE, PRODUCE), and a circular SVG progress indicator in #FF5A1F. Columns 5 through 12 scroll through three comprehensive agency showcase panels (bg-carbon border border-neutral-subtle/25 rounded-3xl p-8 lg:p-12 mb-16 relative overflow-hidden), each crowned by a 1px specular top border (bg-sixo-specular-top).

Panel 05A: Gitlink IT Solutions — Technology Vertical (#panel-gitlink)

The first showcase panel presents **Gitlink IT Solutions** (VERTICAL: Technology | ECOSYSTEM ROLE: BUILD | FOCUS: Technical delivery)[1]. The panel header renders the eyebrow 02 // TECHNOLOGY — GITLINK IT SOLUTIONS in #FF5A1F, the H2 title "BUILD THE TECHNOLOGY." in #F5F5F5, and the exact positioning narrative in #A1A1AA: "Gitlink IT Solutions handles the technology vertical of the Sixolab ecosystem. This is where the actual technical delivery sits. From custom software and AI to automation, cloud infrastructure and the internal systems a business runs on, Gitlink designs and engineers technology that is built to scale and built to last. If someone asks who handles the technology, the answer is Gitlink IT Solutions."[1]. Beneath this narrative, a 3-column Bento matrix displays all 13 core ecosystem capabilities alongside Gitlink's extended web, e-commerce, CMS, and digital growth offerings from gitlinkitsolutions.com[1].

Capability Index & Title (H4, #F5F5F5)	Exact Capability Description (#A1A1AA)	Source & Domain Classification
01. Custom Software Development	"Bespoke software engineered around your	Ecosystem Core Capability (BUILD)

	workflows, instead of forcing your business into off-the-shelf tools."[1]	
02. Web Applications	"Fast, secure and scalable browser-based applications, portals and customer-facing platforms."[1]	Ecosystem Core Capability (BUILD)
03. Enterprise Software	"Robust systems for large teams: role-based access, reporting, integrations and long-term maintainability."[1]	Ecosystem Core Capability (BUILD)
04. AI Solutions	"Practical AI built around real business problems: assistants, analysis, content and decision support."[1]	Ecosystem Core Capability (BUILD)
05. AI Integration	"Embedding AI into your existing products and processes so it increases leverage, not complexity."[1]	Ecosystem Core Capability (BUILD)
06. SaaS Development	"Designing and building subscription software products, from first MVP through to scale."[1]	Ecosystem Core Capability (BUILD)
07. Business Automation	"Removing repetitive manual work through automated workflows and system-to-system handoffs."[1]	Ecosystem Core Capability (BUILD)
08. Mobile Applications	"iOS and Android applications with clean UX and dependable backends (Native Swift/Kotlin, React Native & Flutter)."[1]	Ecosystem Core + Extended App Stack

09. APIs & Integrations	"Connecting your tools, data and third-party services into one system that works together."[1]	Ecosystem Core Capability (BUILD)
10. Cloud & Digital Infrastructure	"Hosting, deployment, security and scaling foundations that keep products fast and online."[1]	Ecosystem Core Capability (BUILD)
11. Internal Business Systems	"Inventory, CRM, operations and management tools tailored to how your company actually runs."[1]	Ecosystem Core Capability (BUILD)
12. Dashboards & Digital Platforms	"Live visibility into data and operations, plus platforms that bring users, content and transactions together."[1]	Ecosystem Core Capability (BUILD)
13. Technical Consulting	"Architecture reviews, technology selection and roadmaps, before you commit budget to the wrong build."[1]	Ecosystem Core Capability (BUILD)
14. Website & E-Commerce Engineering	"Business & portfolio websites, WooCommerce & Shopify online stores, high-converting landing pages (<2s load speed), Core Web Vitals optimization, and headless/custom CMS (WordPress, Webflow, Strapi, Contentful)."[19]	Extended Child Agency Suite (gitlinkitsolutions.com)
15. Digital Marketing & Operational Support	"Data-driven SEO, Social Media Marketing (SMM), Search Engine Marketing (SEM), 24/7 dedicated support, monthly	Extended Child Agency Suite (gitlinkitsolutions.com)

	performance reporting, data entry/OCR, and technical/SEO writing."[18]	

Panel 05B: Xenon Studios — Creative & Branding Vertical (#panel-xenon)

The second showcase panel presents **Xenon Studios** (VERTICAL: Creative & branding | ECOSYSTEM ROLE: CREATE | FOCUS: Brand & experience)[1]. Crowned by the eyebrow 03 // CREATIVE — XENON STUDIOS [FOCUSED • STRUCTURED • PURPOSE-DRIVEN] in #FF5A1F and the H2 title "CREATE THE BRAND AND CREATIVE." in #F5F5F5, the panel delivers the exact studio narrative in #A1A1AA: "Xenon Studios is the creative and branding sister concern within the Sixolab ecosystem. It handles how businesses, products and ideas look, communicate and feel. Brand is perception, and visuals exist to reinforce positioning. Xenon starts with strategy, then builds the identity, design and creative experiences that make a brand memorable. Xenon Studios builds brands and creative experiences that people remember."[1]. All 12 capabilities from Page 10 of the Group Documentation are rendered inside a 3-column architectural Bento grid[1].

Capability Index & Title (H4, #F5F5F5)	Exact Capability Description (#A1A1AA)	Deliverable Focus (#737373)
01. Brand Strategy	"Positioning, audience, messaging and personality: the thinking that comes before any visual."[1]	Positioning Architecture
02. Creative Direction	"One creative vision guiding every touchpoint, campaign and piece of content."[1]	Cross-Channel Vision
03. Brand Identity	"Logo, typography, color and tone assembled into an identity that is recognizable and ownable."[1]	Visual Identity Systems
04. Graphic Design	"Print and digital collateral, packaging and marketing material with premium finish."[1]	Print, Digital & Packaging[1]
05. UI/UX	"Research-led interface and experience design for apps, platforms and digital	Product Interface Design

	products."[1]	
06. Web Design	"Websites and landing pages designed to carry the brand and convert the visitor."[1]	High-Conversion Web UI
07. Motion Design	"Animated identities, explainers and interface motion where every movement has a reason."[1]	Kinetic Identity & UI Motion
08. Campaign Creative	"Concepts and assets built around a single campaign objective across channels."[1]	Integrated Campaign Assets
09. Social Media Creative	"Platform-native content systems that keep a brand consistent and noticed."[1]	Social Visual Systems
10. Digital Experiences	"Interactive, immersive and web-based experiences that bring a brand to life."[1]	Immersive Web Storytelling
11. Content Design	"Decks, editorial and presentations structured and designed to communicate clearly."[1]	Pitch Decks & Editorial[1]
12. Visual Systems	"Scalable design systems and guidelines so every future asset stays on brand."[1]	Design Tokens & Guidelines

Panel 05C: One Percent — Commercial & Film Production Vertical (#panel-one-percent)

The third showcase panel presents **One Percent** (VERTICAL: Production | ECOSYSTEM ROLE: PRODUCE | FOCUS: Film & visual execution)[1]. The header features the eyebrow 04 // PRODUCTION — ONE PERCENT in #FF5A1F, the H2 title "PRODUCE THE VISUAL EXECUTION." in #F5F5F5, and the exact production-house narrative in #A1A1AA: "One Percent is the production company responsible for turning creative concepts into real-world visual productions. It is the production-house side of the ecosystem. From concept and direction through shooting, editing, color, sound and VFX, One Percent delivers finished work under one

roof. One Percent already has production experience with major Bangladeshi and global brands. This is an established production company, not a service category on paper."[1]. Below the narrative, all 19 capabilities from Pages 13 and 14 of the Group Documentation are structured across their four production pillars[1].

Production Pillar (#FF5A1F)	Capability Title (H4, #F5F5F5)	Exact Capability Description (#A1A1AA)
Direction & Management	**01. Creative Direction**	"The concept, treatment and visual language that guides a production from idea to final frame."[1]
Direction & Management	**02. Production Management**	"Scheduling, budgeting, crew, locations and logistics, so shoots run on time and on plan."[1]
Production Formats	**03. Commercial Production**	"End-to-end production for commercial campaigns across broadcast and digital."[1]
Production Formats	**04. TVCs**	"Television commercials crafted for impact in seconds."[1]
Production Formats	**05. Advertising Films**	"Narrative-driven advertising films for campaigns and launches."[1]
Production Formats	**06. Brand Films**	"Longer-form films that communicate who a brand is and what it stands for."[1]
Production Formats	**07. Corporate Films**	"Company profiles, internal communication and stakeholder films with polish."[1]
Production Formats	**08. Product Films**	"Cinematic product showcases that make

		features feel desirable."[1]
Production Formats	**09. Documentary Production**	"Real stories, told with depth, patience and a documentary eye."[1]
Production Formats	**10. Music Videos**	"Visual storytelling built around sound, rhythm and artist identity."[1]
On-Set Craft	**11. Cinematography**	"Camera, lighting and composition that give every frame a cinematic feel."[1]
On-Set Craft	**12. Photography**	"Commercial, product and brand photography with a consistent visual standard."[1]
On-Set Craft	**13. Videography**	"Fast, reliable video capture for events, content and documentation."[1]
Post-Production	**14. Editing**	"Story-first editing: pacing, structure and rhythm that hold attention."[1]
Post-Production	**15. Color Grading**	"Color that sets mood and keeps a whole project visually consistent."[1]
Post-Production	**16. Motion Graphics**	"Titles, animation and graphic layers that clarify and elevate the edit."[1]
Post-Production	**17. VFX**	"Visual effects, compositing and cleanup that make the impossible shot possible."[1]
Post-Production	**18. Sound Design**	"Layered sound, mix and music, because sound does more of the work than people notice."[1]

Post-Production	**19. Post-Production**	"The complete finishing pipeline, from offline cut to final masters and deliverables."[1]

Section 06: What Sixolab LLC Oversees — Group-Level Governance Bento Grid (<section id="group-governance">)

Section 06 shifts focus back to the holding company (py-28 lg:py-36 bg-obsidian border-b border-neutral-subtle/20), presenting the nine strategic domains overseen directly by **Sixolab LLC**[1]. The section header pairs the eyebrow 01 // GROUP-LEVEL AREAS — SIXOLAB LLC in #FF5A1F with the H2 title "What Sixolab LLC Oversees" in #F5F5F5 and the lead explanation in #A1A1AA: "Sixolab LLC provides the strategic, operational and business framework connecting its specialized companies: setting direction, protecting standards and making sure clients get one coherent experience, whichever company is doing the work."[1]. The nine governance areas are arranged in a 3×3 architectural Bento grid (grid-cols-1 md:grid-cols-2 lg:grid-cols-3 gap-6 mt-16) where each .sixo-spotlight-card tracks pointer coordinates in 2D space.

Grid Cell & Monospace Tag (#FF5A1F)	Group-Level Governance Title (H3, #F5F5F5)	Exact Governance Description (#A1A1AA)
01 // DIRECTION	**Business Strategy**	"Long-term direction, positioning and growth planning across the group and inside client engagements."[1]
02 // INCUBATION	**Venture Development**	"Identifying, structuring and launching new companies and products within the ecosystem."[1]
03 // STANDARDS	**Operations**	"Shared processes, standards and delivery systems that keep every company running consistently."[1]
04 // ALLIANCES	**Partnerships**	"Alliances with technology providers, brands, agencies and institutions that extend what the group can

		deliver."[1]
05 // SCOPING	**Business Development**	"Matching each client to the right company and shaping proposals that span disciplines."[1]
06 // INTEGRATION	**Cross-company Projects**	"Coordinating engagements that need technology, creative and production to work as one team."[1]
07 // CAPITAL	**Strategic Investments / New Ventures**	"Backing and building new businesses that strengthen and fit the ecosystem."[1]
08 // PORTFOLIO	**Brand & Portfolio Management**	"Governing how each company is positioned and how the group presents as one portfolio."[1]
09 // OWNERSHIP	**Client Relationships**	"A single point of accountability for clients working with more than one company."[1]

Section 07: The Process — "Five Steps, Every Time" & Engagement Models (<section id="the-process">)

Set on a Carbon Black foundation (py-28 lg:py-36 bg-carbon border-b border-neutral-subtle/20 relative overflow-hidden), Section 07 details how engagements operate across the ecosystem[1]. The header presents the eyebrow 05 // THE PROCESS — WORKING TOGETHER in #FF5A1F, the H2 headline "One Ecosystem. One Standard. Five Steps, Every Time." in #F5F5F5, and the exact operational guarantee in #A1A1AA: "Whether a project needs one company or all three, every engagement follows the same disciplined path: clear scope, clear ownership and clear communication. Timelines and investment are defined per project, after discovery. Nothing is guessed, and nothing is padded."[1]. A 3-cell metadata bar highlights MODELS: Project / Retainer, SCOPE: Defined per project, and ACCOUNTABILITY: One point of contact[1].

Across a 5-column horizontal layout (grid-cols-1 lg:grid-cols-5 gap-6 mt-16 relative), a continuous SVG conduit line (h-[2px] bg-neutral-subtle/25) is progressively filled with #FF5A1F and #FF7A30 via a ScrollTrigger scrub as the user scrolls through the five phases, followed

immediately by a 4-column grid of Engagement Models[1].

Component Type	Step / Model Identifier (#FF5A1F)	Title (H3, #F5F5F5)	Exact Copywriting String (#A1A1AA)
Process Step 01	STEP // 01	**Discovery**	"Goals, constraints, audience and success criteria."[1]
Process Step 02	STEP // 02	**Proposal**	"Scope, deliverables, milestones and terms."[1]
Process Step 03	STEP // 03	**Execution**	"The right company builds, designs or shoots."[1]
Process Step 04	STEP // 04	**Review**	"Structured feedback at agreed checkpoints."[1]
Process Step 05	STEP // 05	**Delivery**	"Final assets, handover and support."[1]
Engagement Model 01	MODEL // 01	**Project-based**	"A defined scope, timeline and deliverable. Best for builds, launches, films and identity work."[1]
Engagement Model 02	MODEL // 02	**Retainer**	"Ongoing capacity for continuous development, content, design or production needs."[1]

Secondary Pages Step-by-Step Frontend Specifications

To ensure the platform operates as a complete, enterprise-grade multi-page system, the following specifications establish the exact section order, heading hierarchy, verbatim copywriting, color tokens, and interactive mechanics for all seven secondary pages. Every secondary page shares the Global Sticky Header (Section 01), the Ambient 3D Volumetric Canvas (#sixo-ambient-3d), and the Global Architectural Footer (Section 09).

Page 2: The Ecosystem & Holding Group (ecosystem.html)

The Ecosystem page serves as the executive briefing document for founders, enterprise procurement leaders, and institutional partners evaluating Sixolab LLC at the holding-group

level[1]. It opens with a deep crimson-lit hero banner, transitions into a structural comparison of how the parent organization governs its three operating companies, details all nine group-level oversight areas, and concludes with the formal four-quadrant Engagement Criteria Matrix for working directly with Sixolab LLC[1].

Architectural Synthesis & Deployment Governance

By uniting the **70 / 20 / 10 Obsidian, Crimson, and Sixo Orange color architecture** with a **strictly non-3D-hover 2D planar physics engine**, a **4-stage anatomical Knight/S-O-L SVG preloader**, and a **dual-layer capability taxonomy**, the Sixolab LLC website resolves the core challenge of holding-group web design[1]. Enterprise buyers, startup founders, and institutional partners arriving at www.sixolab.com immediately grasp the clarity of the top-level **Build (Gitlink IT Solutions) • Create (Xenon Studios) • Produce (One Percent)** triad while retaining immediate, frictionless access to all 53 underlying engineering, creative, commercial production, and operational services under a single point of accountability[1].
